EDUCATION

B Tech in Information Technology

Government college of Technology • Coimbatore

Diploma in Computer Technology

V.S.V.N Polytechnic College • Virudhunagar

Percentage : 96.8%

CERTIFICATIONS

DESIGN AND IMPLEMENTATION OF HUMAN-COMPUTER INTERFACE • 07/2024 - 10/2024

NPTEL - IIT, Guwahati

PROJECTS

Baby Monitoring System

Baby monitoring System That allows parents to check on their baby remotely and in real time. This project detects moisture(wet), sound(cry) and motion of babies. Node MCU Controller Board is explained to gather the data read by the sensor and upload via WiFi to the Python server and app is used to monitor the baby activity

Agritech Innovators

AgriConnect is aimed at addressing the pressing challenges faced by farmers, including market access, knowledge sharing, and peer networking. Traditional approaches relying on middlemen and generic social platforms are identified as falling short in catering to the specific needs of the farming community.

Frontend Mentor Projects

Frontend Mentor offers a variety of front-end coding challenges tailored to different skill levels, including "Newbie" and "Junior" categories. These challenges are designed to help you practice and enhance your HTML, CSS, and JavaScript skills by working on real-world projects.

Newbie Challenges: These are ideal for beginners focusing on fundamental HTML and CSS skills. Projects typically involve building simple, responsive components and layouts.

Junior Challenges: Aimed at those with a basic understanding of front-end development, these challenges introduce more complex layouts and may require basic JavaScript for interactivity.

Portfolio

A Portfolio Website built using HTML, CSS, and JavaScript serves as a digital resume, showcasing personal skills, projects, and contact information in an interactive and visually appealing manner. The website consists of several key sections, starting with the Home Page, which includes a professional introduction, a profile picture, and a call-to-action button that directs visitors to explore the portfolio further. The About Section provides a brief summary of personal background along with a downloadable resume.

SKILLS

Programming: HTML, CSS, Bootstrap, Basics of DOM manipulation in Javascript

SQL: Utilize SQL for data extraction and manipulation.

Problem solving : Skilled in innovative problem-solving with a focus on efficient and creative solutions.
